

## Seasonal Color Supervisor:

Woodlawns Landscape Company is seeking a professional with entry-level experience in the landscape industry who is interested in taking the next step in his or her career. We are in need of an individual who would like to join our innovative, out-of-the-box, fast paced team, as our company has tripled in growth in the last 5 years. Woodlawns is a fun place to work that provides room for growth and career advancement.

With over 100 high profile sites, including retail, industrial, and commercial properties alike in both the city of Chicago and surrounding suburbs, we are looking for a unique professional to imagine, design, and install the most creative seasonal color in the industry. We take pride in our designs, enjoy our work family, and challenge ourselves to be ahead of the curve, setting the tone for seasonal color in Chicagoland.

This position will work closely with the Seasonal Color Manager, ensuring the best installations all year round. The ideal candidate will be organized, creative, works well as part of the team, and is not afraid to get dirty. Jobs will be viewed start to finish, from conceptualizing and designing all the way through to installation and clean up, for all the seasons of color. A flexible schedule is a must as this person will be part of overseeing yard inventory, loading, management of materials, and daily on-site installations. The ability to take direction and also provide direction is part of the balance required for this position.

Preferred knowledge in plant ID, particularly annuals and perennials. A general love of our industry and creative landscape design. Bilingual in English and Spanish is a plus. We recommend you check out our Facebook and Instagram (Woodlawns\_Landscape\_Company\_) profiles to view examples of our work. Candidates, please submit your resume to Katrina Kindle at [Katrina.kindle@woodlawnslandscape.com](mailto:Katrina.kindle@woodlawnslandscape.com) .
